## Education

---

- 2022 - 2024 **MSc in Computer Science**  
Nagindas Khandwala College of Arts and Science  
**CGPA : 8.6**
- 2019 - 2022 **BSc in Information and Technology**  
Nagindas Khandwala College of Arts and Science  
**CGPA : 9.55**
- 2018 - 2019 **HSC - Shri T.P Bhatia**
- 2016 - 2017 **SSC - N.T.C.C School**

## Experience

---

### Front-end Developer Intern @HiPER Jan 24 - Sept 24

- revamped the HiPER's Official website
- Created Internal Dashboards (jeera like software)

### Front-end Developer @Hiper - Oct 24 - Present

- Architected the entire frontend codebase using a scalable monorepo architecture, enabling better code reuse and maintainability across projects.
- Developed and maintained UI tools integrated with hardware products (e.g., ESP32), bridging the gap between embedded systems and frontend interfaces.
- Designed intuitive user experiences and interfaces using Figma, contributing to enhanced usability and design consistency.
- Dockerized internal dashboards, streamlining the development workflow and reducing deployment time by over 20
- Deployed and hosted web applications on AWS using S3 for static site hosting and CloudFront for global content delivery, ensuring high availability and performance.

## Projects

---

- Philomatheon classes
- Weather App (has a option for live location searching for weather all over the world)
- Html and bootstrap Online editor
- Taskmanager (has an option to prioritize task according to deadline)
- E-commerce for clothe selling (full-stack not hosted)

## Skills

---

- **Programming:** JavaScript — React — Node Js — TypeScript — MySql— Tailwind CSS — Bootstrap — Git — Github — UI/UX — Firebase — Netlify
